

**HUMAN SERVICES DEPARTMENT[441]**

**Adopted and Filed**

Pursuant to the authority of Iowa Code section 234.6, the Department of Human Services amends Chapter 118, “Child Care Quality Rating System,” Iowa Administrative Code.

The amendments update the quality rating system by removing some criteria, adding additional criteria, and recalibrating the points within the system and the total points required for each level. During the system’s three years of operation, providers and stakeholders have brought to the Department’s attention changes needed to make the awarding of points more equitable. These amendments include the following changes:

- Clarification that there are separate application forms for child development homes and for centers and preschools, to present the requirements for each provider type more clearly.
- A limit on applications for a Level 1 rating to one 24-month period. Subsequent applications by the same provider must be for a higher level.
- Removal of requirements for the child care business-partnership agreement and the director/owner survey for a Level 2 rating.
- More points required for Levels 3 to 5 to allow scoring of more variables in each category and to give more weight to facility accreditation and to higher educational achievement by staff.
- Addition of points for parent meetings and parent satisfaction surveys used to inform program practices.
- Requirement of a minimum score of 5.0 on the applicable environment rating scale to receive a Level 5 rating.

The amendments provide for a six-month transition period during which providers may apply for a quality rating under either the current requirements or the new requirements.

These amendments do not provide for waivers in specified situations. Providers have a variety of ways to meet the rating requirements. Requests for the waiver of any rule may be submitted under the Department’s general rule on exceptions at 441—1.8(17A,217).

Notice of Intended Action on these amendments was published in the Iowa Administrative Bulletin on May 19, 2010, as **ARC 8757B**. The Department received comments on the Notice of Intended Action from 53 people. Major areas of comment were the number of points available for different levels of professional development and the elimination of previously scored areas under health and safety related to actions completed by child care nurse consultants. The Department had recommended removal of these criteria due to the limited availability of qualified nurses after state and local budget cuts and concerns about inter-rater reliability.

In response to these comments, the Department has made the following changes to the amendments as published under Notice of Intended Action:

- Added to Item 3 a new definition of “Aim4Excellence credential,” a national director credential for early childhood administrators.
- Updated the six-month transition period for implementing the new standards to be from February 1, 2011, through July 31, 2011, and reorganized rule 441—118.2(237A) in Item 4 to clarify which forms and standards apply to which facilities and periods.
- Increased the number of points required for a rating at Level 3, 4, or 5 in subrule 118.5(1) and for a rating at Level 3 or 5 in subrule 118.6(1).
- Added the Aim4Excellence credential to the criterion in subparagraph 118.5(2)“a”(1).
- Clarified that only one criterion (the highest applicable) may be scored for each staff member under paragraph 118.5(2)“b” and for the facility under paragraphs 118.5(4)“d” and 118.6(3)“c.”
- Increased the number of potential points for health and safety in subrules 118.5(3) and 118.6(3) and added three more criteria under health and safety: injury prevention, child record review, and health and safety assessment (new paragraphs 118.5(3)“e” to 118.5(3)“g” and 118.6(3)“e” to 118.6(3)“g”).

- Lowered the number of points awarded for completion of a health and safety training session and clarified that points for completion of a health and safety training must be earned within two years before the application date and points for completion of a college health, safety, and nutrition class must be earned within five years before the application date.

- Specified the applicable environment rating scales in subparagraphs 118.5(4)“a”(1) and 118.6(4)“a”(1).

- Increased the number of points available for professional development in subrule 118.6(2) and separated additional professional development criteria from experience and training criteria.

- Clarified in subrule 118.6(2) that points will be awarded for completion of modules 1 and 2 of positive behavior and support training offered by the Center on Social and Emotional Foundations for Learning and increased the number of points awarded for completing modules 1 through 4 of the Program for Infant and Toddler Care.

- Reduced the number of points awarded for most of the education criteria in relettered paragraph 118.6(2)“c” to make the number match the points given to center staff for the same educational level.

The Council on Human Services adopted these amendments on November 10, 2010.
